PROFESSIONAL SUMMARY

Full Stack SDE (B.Tech CSE 2023–2027) with 7+ months of production internship experience at CodeInbound LLP. Skilled in React.js, TypeScript, Redux, FastAPI, Python, Docker, CI/CD, and Google Cloud Platform. Resolved critical production issues in enterprise-scale applications and built AI-powered full-stack systems deployed on GCP Cloud Run. GCP Legend Tier certified. Seeking SDE, Full Stack, and Cloud/DevOps opportunities.

EXPERIENCE

Celebal Technologies (Celebal Excellence Internship) , 2026/06 – 2026/08 | Remote
Data Engineering Intern

- Developed ETL and data transformation pipelines using Python, Pandas, and NumPy for retail sales data processing, cleansing, and feature engineering.
- Conducted Exploratory Data Analysis (EDA), data validation, and sales metric computation in Jupyter Notebook to support data-driven decision-making.

Code Inbound LLP , Software Development Engineer Intern 2025/12 – 2026/06 | Remote

- Resolved critical React, TypeScript, Redux, and WebSocket issues in a production enterprise dashboard, improving reliability and real-time performance.
- Fixed 30+ frontend bugs related to state management, responsiveness, cross-browser compatibility, and UI functionality across 10+ modules.
- Debugged and optimized 25+ React components, enhancing application stability, performance, and user experience.
- Collaborated with cross-functional teams to investigate, test, and deploy production-ready fixes.

Sphurtti Sports Fest 2026(DIT University) , Technical Team Head 2026/01 – 2026/03 | Dehradun, India

- Led a 10-member development team to design, build, and deploy a full-stack sports management platform within a 3-month timeline.
- Oversaw project planning, Agile task management, code reviews, and production deployment.
- Built live score updates, event registration workflows, and dynamic data systems using React.js, Node.js, MongoDB, and REST APIs.

PROJECTS

AI Resume Analyzer & ATS Optimizer , React 18, TypeScript, FastAPI, PostgreSQL, GitHub Actions

- Built an AI-powered resume analyzer with ATS scoring, resume parsing, and JD matching.
- Implemented JWT authentication and skill-gap analysis, reducing manual screening effort by ~80%.
- Deployed using Docker, GitHub Actions CI/CD, and GCP Cloud Run.
- GitHub:** <https://github.com/Navneet9099/ai-resume-analyzer>

SKILLS

Programming Languages: Java, Python, C, JavaScript, TypeScript

Frontend Development: React.js, Vue.js, HTML5, CSS3, Responsive Web Design, RESTful API Integration, Cross Browser Compatibility, TypeScript, Redux, Agile/Scrum, Jest, Unit Testing

Backend Development: FastAPI, Node.js, Express.js, REST API Integration

Databases: MongoDB, SQL, PostgreSQL

Cloud and DevOps Tools: Docker, Google Cloud Platform, Git, GitHub, GitHub Actions, CI/CD, Vercel

Core Computer Science Concepts: Data Structures, Algorithms, Object Oriented Programming, Software Development Lifecycle

CERTIFICATIONS

Google Cloud Arcade Program , Legend Tier Achiever

Linux Fundamentals

Database Management Essentials

Introduction to Java

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering,

2023 – 2027 | Dehradun, India

DIT University

Specialization in Full Stack Development and DevOps **CGPA: 7.12**
